How do you get your fun? Have you tried snowboarding or mountain biking? I have, but they aren't as much fun as caving. It's the most exciting, the most frightening, and the most amazing adventure sport you can imagine!

I first went caving last summer, on a scheme for teenagers like me who have never been caving before. And I loved it! Our experience began when we arrived at the mouth of a huge underground cave in Yorkshire, in the north of England. There were 12 of us and our guides divided us into two groups of six. We put on warm, waterproof clothes, big boots and helmets with lamps on them, before we climbed down into the cave. It was dark, cold and wet there. Sometimes it was very narrow, too, and I felt frightened then. But there were also some great things to see and do. We climbed up ladders and down ropes, and we saw some beautiful underground waterfalls.

It was one of the most wonderful experiences I've ever had. I can't wait to try it again!
